Halter

Have you ever wished that your communications— your emails, your texts, your posts—could be more expressive? That when you write things down, they'll stand out more prominently? Perhaps that letters on web pages were more dynamic? Maybe you want to use your own corporate fonts? You can do all of that. When it comes to typefaces, Halter is unique. It gives you all the richness of the original sans-serif fonts, with the advantage of allowing you to write elegant things. Halter combines the beauty of a serif font with the clarity of a sans-serif font. It provides us with a set of new ways to make your communications expressive, playful, and unique. You might have noticed that some of the glyphs in Halter are heavily stylized—they're exaggerated. Halter isn't trying to reinvent the universe. Instead, it's using exaggeration to help redefine modern typography. Changes in Halter 1.0.9 * Reordering of the glyphs to maintain aesthetic consistency. * Improved visibility of glyphs on latin texts. * Updated dark variant with thicket.
