[Cystoscopy in urology, part 2: bladder and urethral surgery]. Cystoscopy is an important tool in urologic diagnosis and therapy. The diagnostic value of cystoscopy extends beyond the identification of underlying tumors and polyps into the classification of normal variants of the bladder and urethra. Some variants may undergo malignant change (hemangioma, angiomyolipoma, leiomyoma) whereas other benign variants may be associated with neoplasia (submucous nodule, carcinoma in situ). There are many treatment modalities for urethral and bladder tumors, including transurethral resection, transurethral surgery, endoscopic electrocautery, laser surgery, radiotherapy, and cryotherapy. The choice of therapy is based on the extent and localization of the tumor, the biologic behavior of the tumor, and the severity of the symptoms. Likewise cystoscopy is used to exclude malignancy in patients with recurrent hematuria. Q: Binding nullable bool in the XAML Binding How can I bind a nullable bool (bool?) in the binding of a XAML ListBoxItem? I can't seem to find a way to bind to a nullable bool. I want to use a simple binding to allow users to set the Image and the Text property. A: You can do this with a Converter. See this article for an example. of public events.
